CATALOGUE
No. 13

TO OUR CUSTOMERS

WE take pleasure in handing you Catalogue No. 13, of Faries Manufacturing Company, showing a full line of their Patent Adjustable Electric Lamp Holders, Gas, Electric *and* Combination Fixtures and Fittings

Prices. All former quotations are hereby superseded. Prices are given in connection with each cut; discount to the trade will be quoted on application. Prices subject to change without notice.

Terms. Net 30 days from date of invoice, or 2 per cent for cash within 10 days.

References. Unless you know yourself to be well reported by the commercial agencies, the money should accompany order or satisfactory reference be furnished.

C. O. D. We will send goods C. O. D., but as a guarantee of good faith parties so ordering will be required to remit with order an amount sufficient to pay transportation charges both ways, which will be deducted on bill.

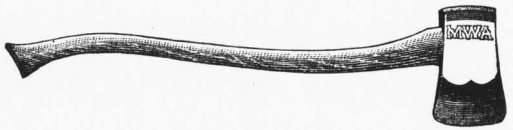
How to Order. In ordering please use our catalogue numbers and names of goods; also state whether goods are to be sent by freight or express; unless preference is given we will ship according to our best judgment. Our responsibility ceases when we have obtained carrier's receipt "in good order."

Packing and Cartage. Our charges for boxing will always be reasonable, being only enough to cover cost of material used in putting up goods. No charge will be made for cartage.

Finish. In ordering state finish desired. If none is indicated we will send polished brass. We will furnish rich gilt, old brass, brushed brass, oxidized brass or black iron at same price as polished brass and nickel or acid bronze at same price as oxidized copper.

Brass and Aluminum Castings

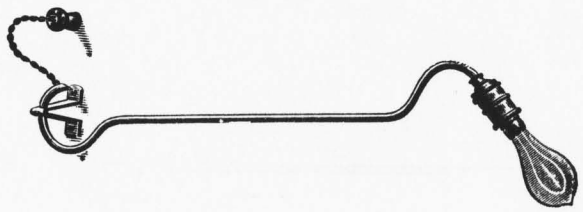
We are furnishing chandelier and fixture manufacturers in all parts of the country castings made from their own patterns as well as from a very large line that we ourselves have. If you are using castings it will pay you to write us. We can furnish you the right kind at reasonable prices.



Possibly an ax has no place in a catalogue of electric fixtures. It will serve its purpose here if it may stand as a representative of our work in the line of aluminum castings. We letter these axes "M. W. A." or "W. O. W." If you require any kind of aluminum castings write us.

Description

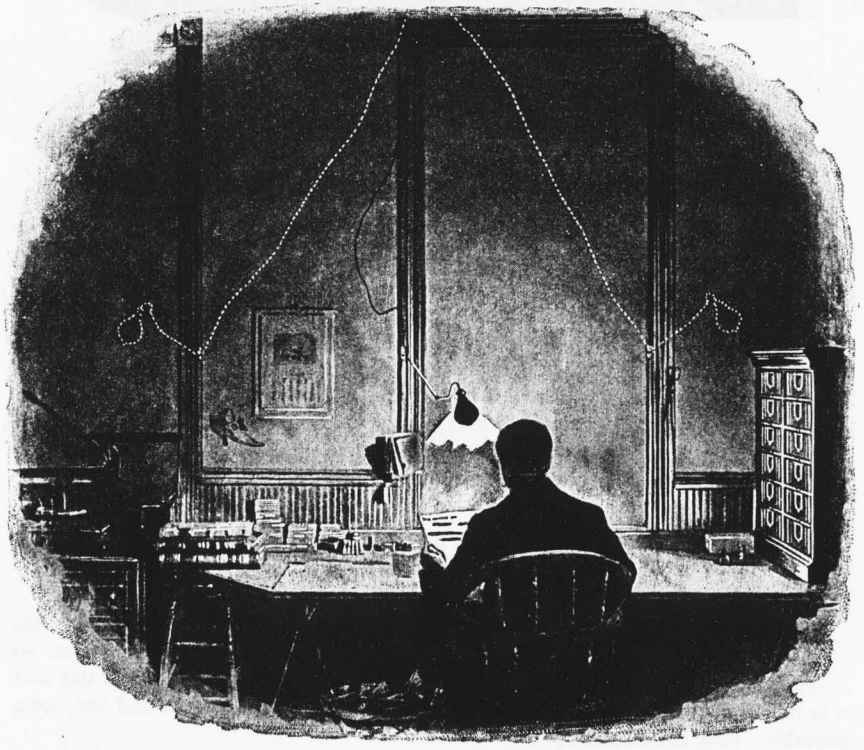
IN ITS SIMPLEST FORM the Faries Adjustable Lamp Holder consists of a bracket, or support, and an arm, as shown in the following cut.



Material Used

The smaller brackets are made of *brass;* the larger ones of either *brass* or *iron*. The outer arms are always made of *heavy brass tubing*.

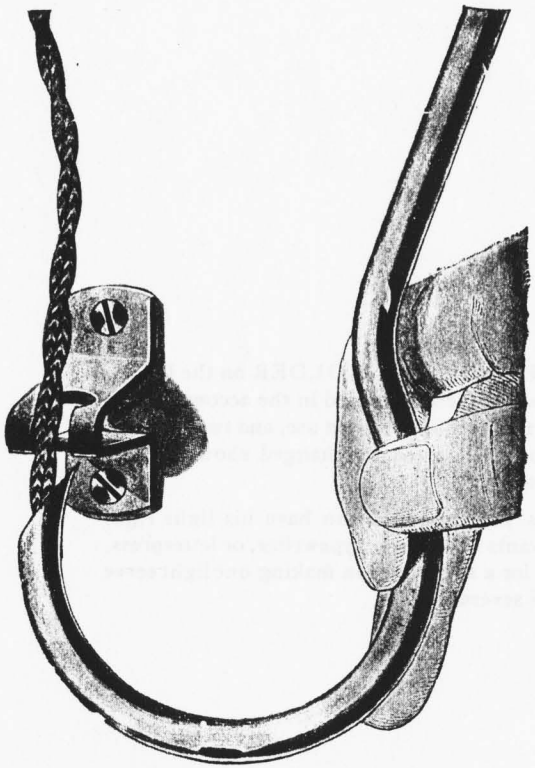
Put Your Light Right Where You Want It



THE DETACHABLE HOLDER on the following page is well illustrated in the accompanying cut, where the light is shown in use, and two different positions to which it can be changed shown by the dotted lines.

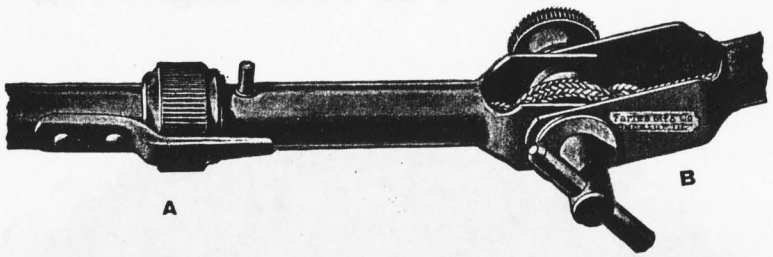
In this way the user can have his light right where he wants it—at desk, typewriter, or letterpress, etc. Thus for a single person making one light serve the place of several.

Detachable Arm



Detachable Bracket..... 15 cents

The Swivel and Hinge



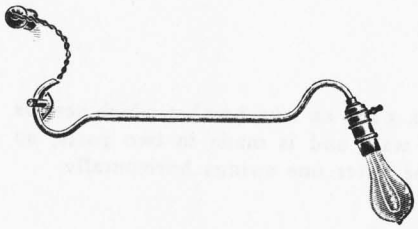
Swivel..... 50 cents

THE SWIVEL, shown at A, allows the lamp to be turned to any position the same as one might turn his hand upon his wrist, only the motion is less limited, and it will stay wherever put. The greatest amount of light is obtained at the side of the lamp, but when holders without the swivel are used it is sometimes impossible to throw the light from the side of the lamp upon the spot desired. The swivel enables the light from the side of the lamp to be cast right where it is wanted.

The hinge of the outer arm is shown nearly full size at B. This shows how strands of cord are separated and thimble placed between them, thus keeping the cord in place.

THIS CUT shows the curved end of arm and the bracket nearly the full size of the smaller holders, and with the end of the bracket slotted out, so that when end of arm is withdrawn from eye the cord can be drawn out and the arm attached to a different bracket at some other point. As many as three or four supports may be put up at convenient places on the wall and the lamp quickly changed from one to any other, thus making the lamp, in a measure, portable. (See cut on page 5).

Adjustable Brackets

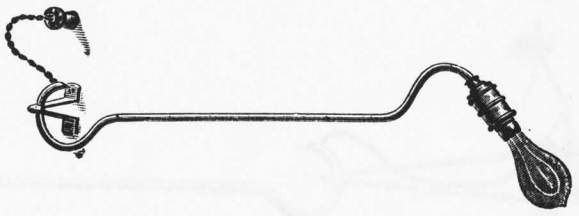


No. 1

⅜ inch Tubing 16 inches Long

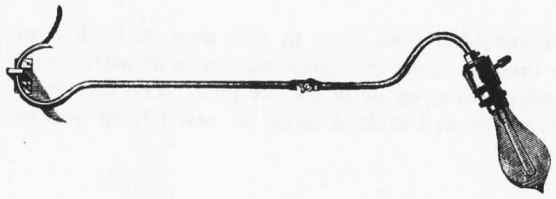
	Polished Brass	Oxidized Copper
No. 1	$ .60	$ .80
No. 2	.70	.90
No. 3	1.25	1.55
No. 4	1.60	1.90
Canopy Extra	.45	.55
Extra Detachable Bracket	.15	.15

A canopy like No. 38, page 11, may be used on Nos. 1, 2 and 3 if desired.



No. 2

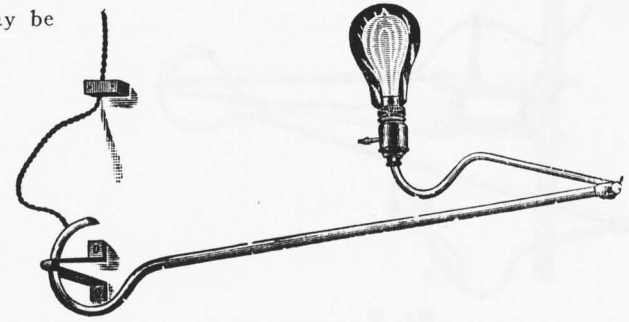
⅜ inch Tubing 24 inches Long



No. 3

⅜ inch Tubing 24 inches Long

It has a second section hinged to the first.



No. 4

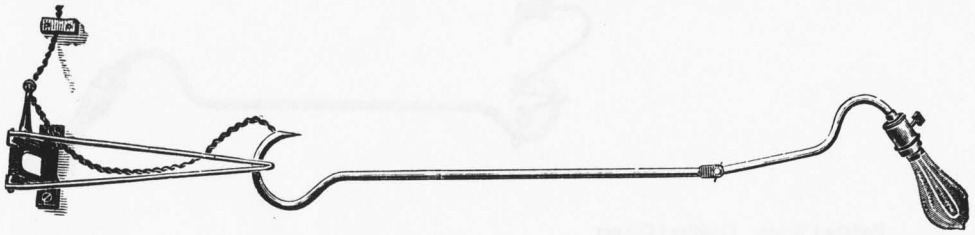
½ inch Tubing 40 inches Long

It has a second section hinged to the first.

PRICES DO NOT INCLUDE SHADE, LAMP, SOCKET OR CORD

Adjustable Brackets

Especially Adapted for Shop and Factory Use

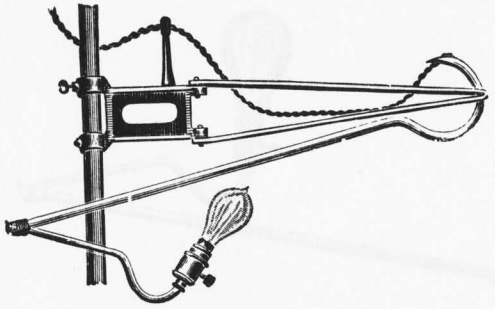


No. 5

½ inch Tubing 5 feet long

Polished Brass	$2.40
Oxidized Copper	2.70

No. 5 has an iron bracket which screws to the wall, and is made in two parts, so that the outer one swings horizontally.



No. 6

½ inch Tubing 5 feet long

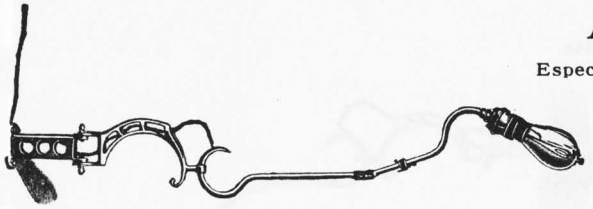
Polished Brass	$2.65
Oxidized Copper	2.95

No. 6 has an iron bracket, which is provided with eyes to slip over ¾ inch iron pipe. The lamp may be placed in any inch of space in a circle 10 feet in diameter horizontally and 6 feet vertically, besides adjustment up or down the post. The pipe may hang down from ceiling, extend up from floor, bench or desk, or reach from one to the other.

PRICES DO NOT INCLUDE SHADE, LAMP, SOCKET OR CORD

Adjustable Brackets

Especially Adapted for Office, Store, Doctor or Dentist



No. 8

⅜ inch Tubing 3 feet long

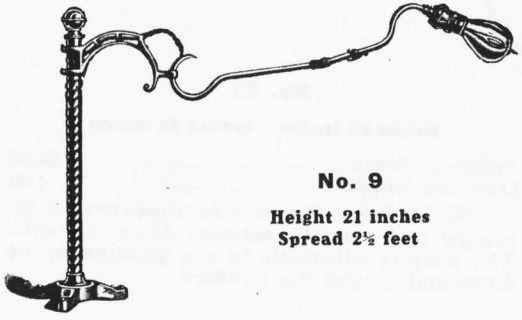
Polished Brass	$3.75
Oxidized Copper	3.35

No. 7

½ inch Tubing 5 feet long

Polished Brass	$5.00
Oxidized Copper	4.50

Nos. 7 and 8 have brackets which screw to wall and are made in two parts, so that the outer parts swing horizontally and allow outer arm to be adjusted in any direction. When the brackets are furnished in oxidized copper the wall bracket is made of cast iron. This makes them a little cheaper than the brass ones, in which brass castings are used.



No. 9

Height 21 inches
Spread 2½ feet

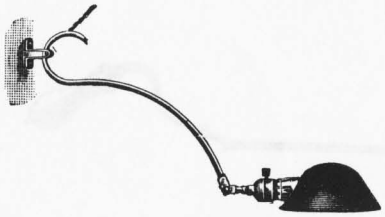
In No. 9 the base is screwed to desk or table and the arm revolves entirely around the standard.

Polished Brass	$4.50
Oxidized Copper	4.50

PRICES DO NOT INCLUDE SHADE, LAMP, SOCKET OR CORD

Adjustable Brackets

Especially Adapted for Office, Store and Residence Use

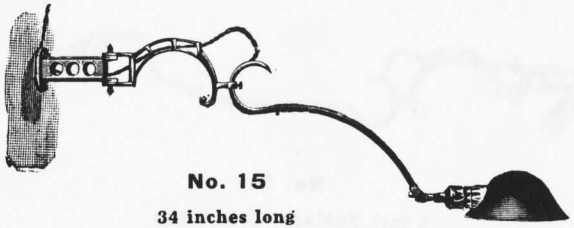


No. 14

22 inches long

Polished Brass $1.10
Oxidized Copper 1.30
Extra Canopy—Brass, 45c; Oxidized Copper .55

No. 14 has a single arm which can be raised or lowered and swung to either side. A canopy like No. 38, page 11, may be used on it.

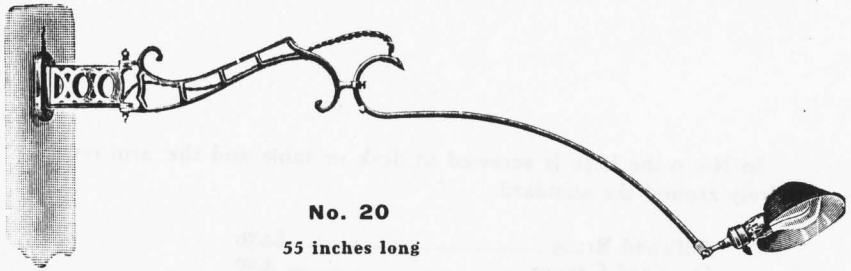


No. 15

34 inches long

Polished Brass $3.25
Oxidized Copper 2.85

No. 15 has a wall bracket which swings horizontally only and very much increases the scope of adjustment as compared with No. 14.

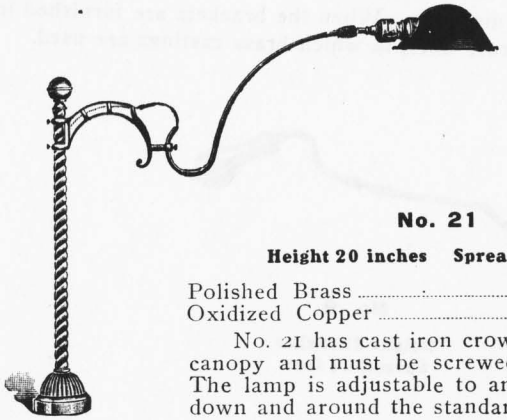


No. 20

55 inches long

Polished Brass $4.50
Oxidized Copper 4.00

No. 20 is practically the same as No. 15, only that it is longer and larger in proportion.



No. 21

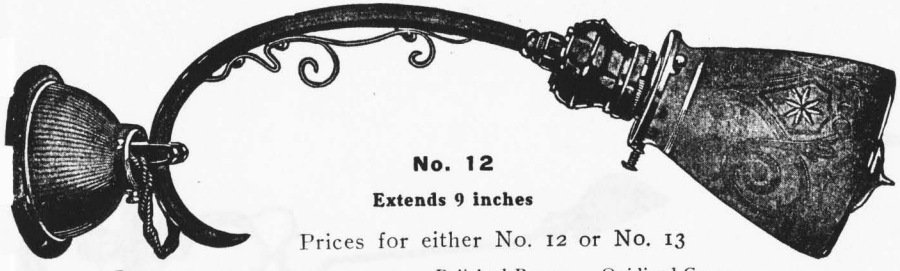
Height 20 inches Spread 26 inches

Polished Brass $4.00
Oxidized Copper 4.00

No. 21 has cast iron crow foot covered by canopy and must be screwed down to table. The lamp is adjustable to any position up or down and around the standard.

PRICES DO NOT INCLUDE SHADE, LAMP, SOCKET OR CORD

Adjustable Wall Brackets

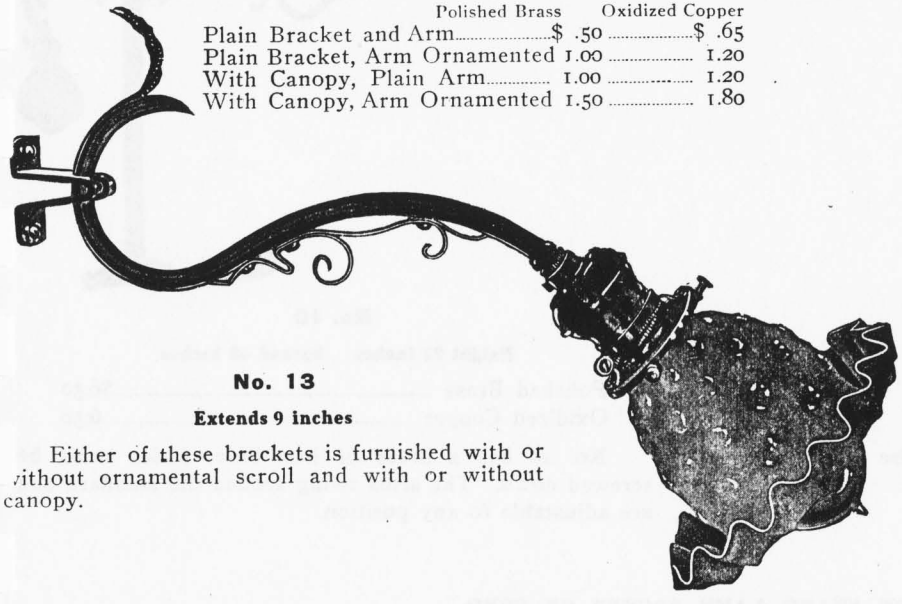


No. 12

Extends 9 inches

Prices for either No. 12 or No. 13

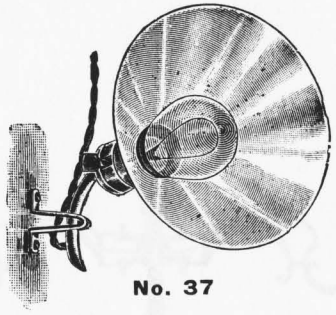
	Polished Brass	Oxidized Copper
Plain Bracket and Arm	$ .50	$ .65
Plain Bracket, Arm Ornamented	1.00	1.20
With Canopy, Plain Arm	1.00	1.20
With Canopy, Arm Ornamented	1.50	1.80



No. 13

Extends 9 inches

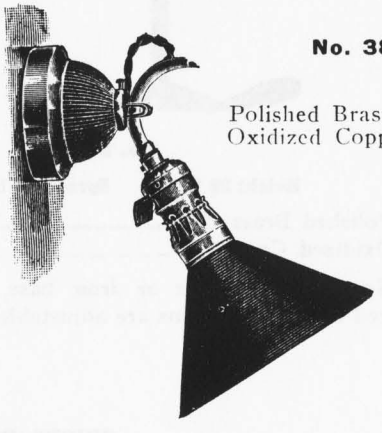
Either of these brackets is furnished with or without ornamental scroll and with or without canopy.



No. 37

	Per Dozen
Polished Brass	$4.00
Oxidized Copper	4.75

Nos. 37 and 38 are especially adapted to the lighting of show windows at top, bottom or side.

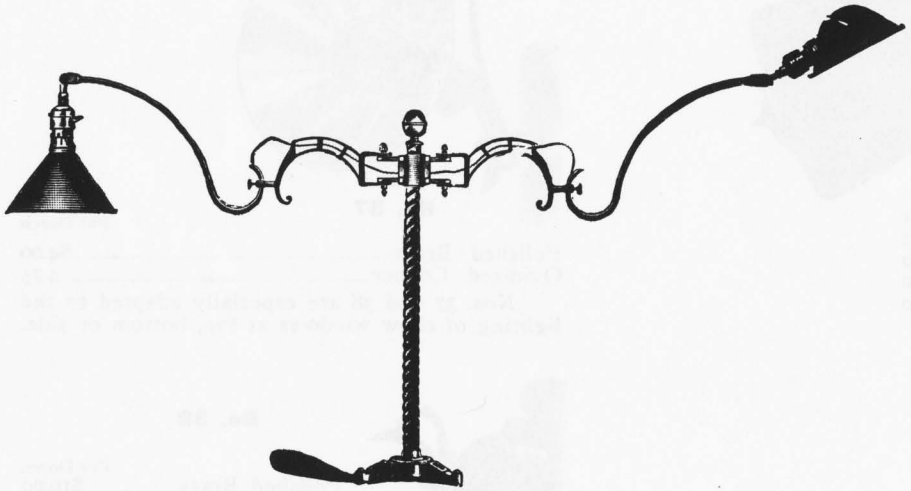


No. 38

	Per Dozen
Polished Brass	$10.00
Oxidized Copper	11.20

PRICES DO NOT INCLUDE SHADE, LAMP, SOCKET OR CORD

Adjustable Desk Brackets

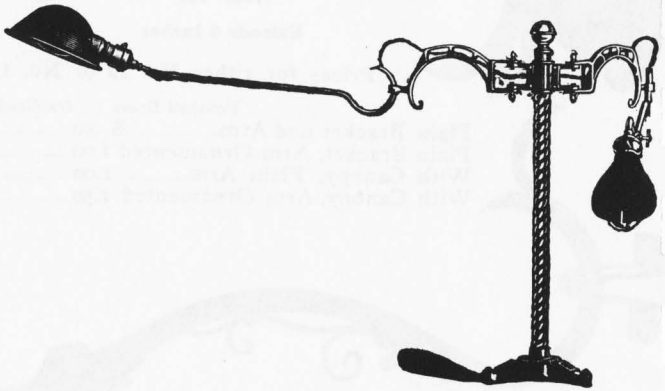


No. 25

Height 22 inches Spread 48 inches

Polished Brass	$6.75
Oxidized Copper	6.75

No. 25 has a brass or iron base, which must be screwed down. The arms are adjustable to any position.



No. 10

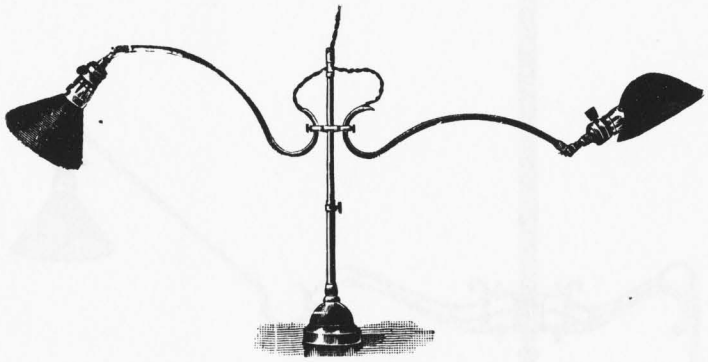
Height 22 inches Spread 48 inches

Polished Brass	$6.50
Oxidized Copper	6.50

No. 10 has a brass or iron base, which must be screwed down. The arms swing around the standard and are adjustable to any position.

PRICES DO NOT INCLUDE SHADE, LAMP, SOCKET OR CORD

Adjustable Desk Brackets

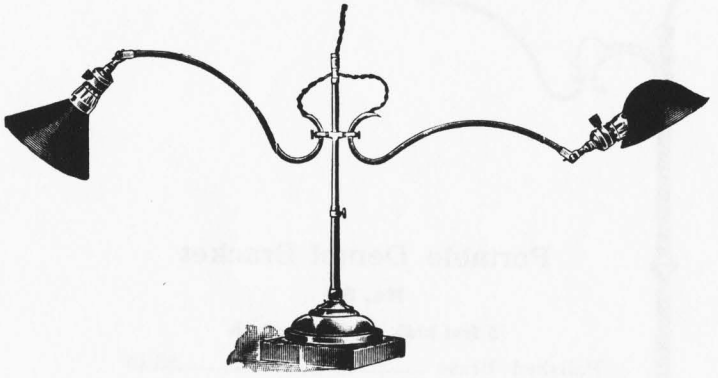


No. 35

Height 12 to 18 inches Spread 40 inches

Polished Brass $4.00
Oxidized Copper 4.50

No. 35 has an iron base, covered with a canopy, which must be screwed down.



No. 1005

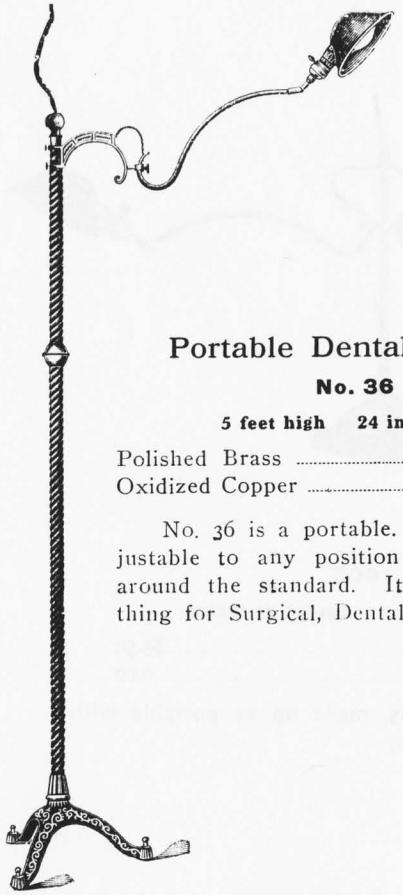
Height 12 to 18 inches Spread 40 inches

Polished Brass $5.50
Oxidized Copper 6.00

Same fixture as No. 35, made up as portable with heavy slate base like No. 827.

PRICES DO NOT INCLUDE SHADE, LAMP, SOCKET OR CORD

Adjustable Brackets



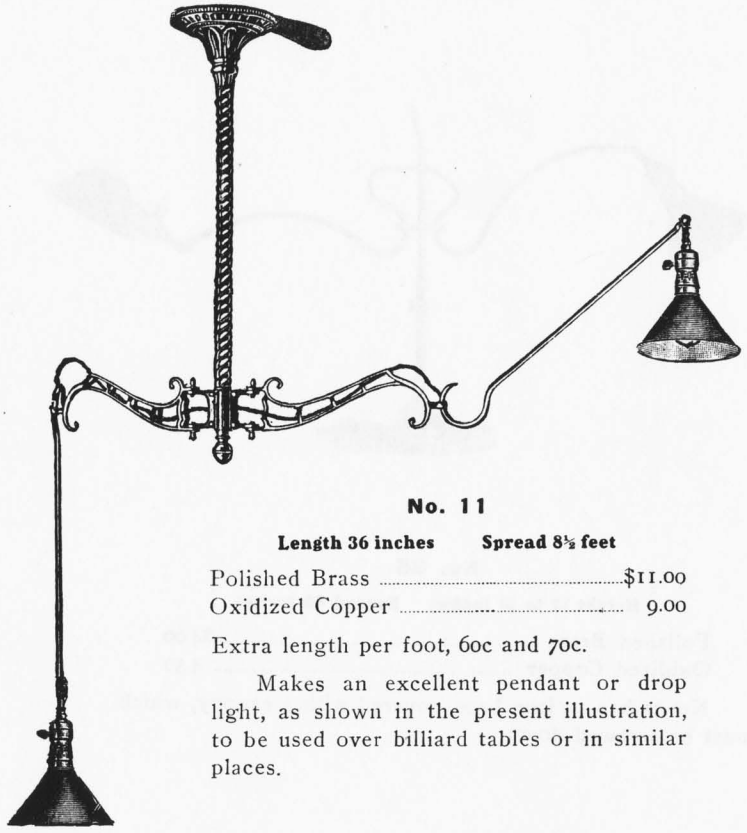
Portable Dental Bracket

No. 36

5 feet high 24 inch reach

Polished Brass	$8.40
Oxidized Copper	8.40

No. 36 is a portable. The arm is adjustable to any position and will swing around the standard. It is an excellent thing for Surgical, Dental or Piano Lamp.



No. 11

Length 36 inches Spread 8½ feet

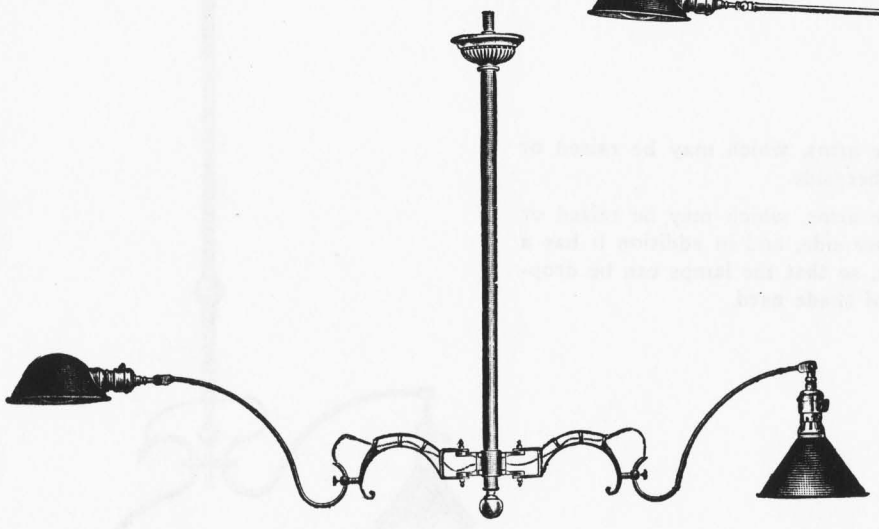
Polished Brass	$11.00
Oxidized Copper	9.00

Extra length per foot, 60c and 70c.

Makes an excellent pendant or drop light, as shown in the present illustration, to be used over billiard tables or in similar places.

PRICES DO NOT INCLUDE SHADE, LAMP, SOCKET OR CORD

Adjustable Brackets

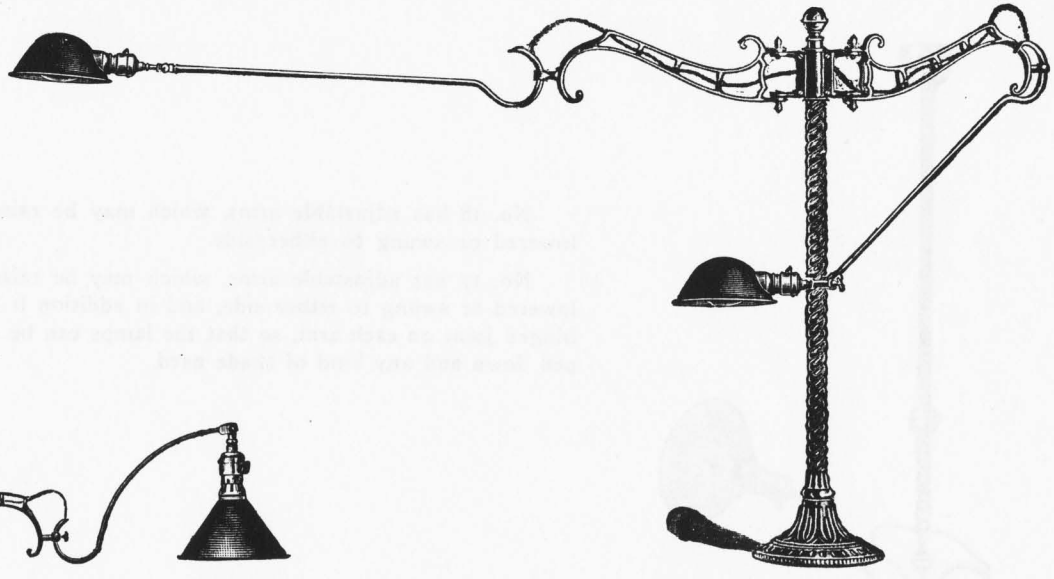


No. 19

Length 36 inches Spread 48 inches

Polished Brass	$6.75
Oxidized Copper	6.75

No. 19 is adjustable and lamps can be placed in any position up or down and around the hanger.



No. 11

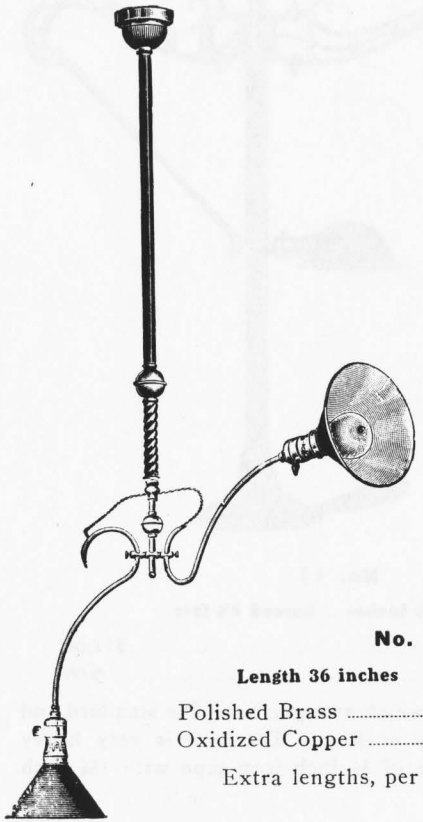
Height 36 inches Spread 8½ feet

Polished Brass	$11.00
Oxidized Copper	9.00

No. 11 has arms which swing around the standard and are adjustable to any position. The base is very heavy and standard is made of ¾ inch iron pipe with 1¼ inch casing.

PRICES DO NOT INCLUDE SHADE, LAMP, SOCKET OR CORD

Adjustable Fixtures



No. 18 has adjustable arms, which may be raised or lowered or swung to either side.

No. 17 has adjustable arms, which may be raised or lowered or swung to either side, and in addition it has a hinged joint on each arm, so that the lamps can be dropped down and any kind of shade used.

No. 18

Length 36 inches Spread 26 inches

Polished Brass	$3.00
Oxidized Copper	3.50

Extra lengths, per foot, 40c and 50c

No. 17

Length 36 inches Spread 30 inches

Polished Brass	$4.25
Oxidized Copper	4.75

Extra lengths, per foot, 40c and 50c

PRICES DO NOT INCLUDE SHADE, LAMP, SOCKET OR CORD

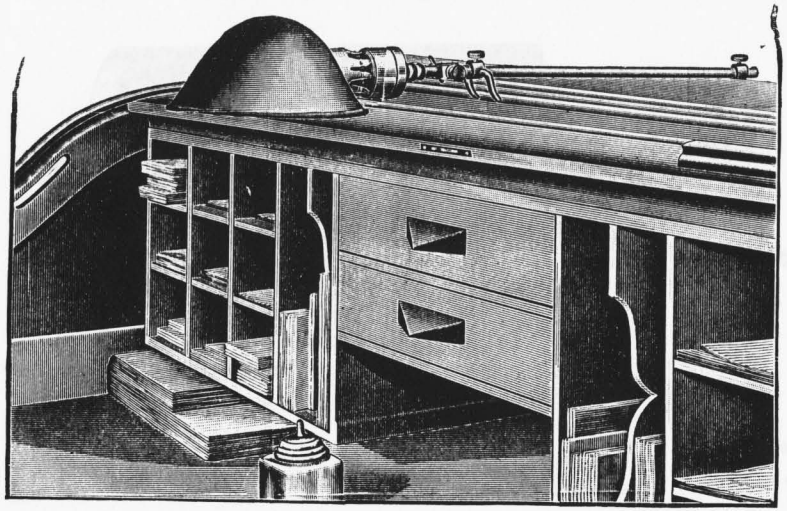
Adjustable Portables and Roll Top Desk Brackets

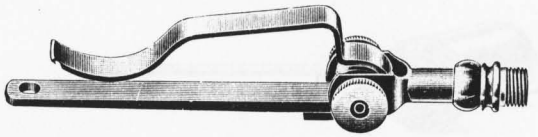


No. 72

3-8 inch Tubing Regular size fits desk any width up to 15 inches

Polished Brass $1.25
Oxidized Copper 1.45

OUR ROLL TOP DESK BRACKET, with our No. 27 shade, either steel or aluminum frosted, we believe to be the most efficient arrangement for this purpose on the market. The shade gives a nice, soft light, which may be thrown in absolutely any direction by means of the joint in the bracket or by the shade swiveling on the socket. The bracket may be instantly attached or detached. The cord enters the bracket at back of the desk, thus being kept out of the way. The hooks for attaching to desk are made of soft brass, which may be easily bent to fit different styles of moulding.



No. 97

Desk Clamp

Polished Brass 35c
Oxidized Copper 45c

A No. 27 Shade should be used with this fixture, also.

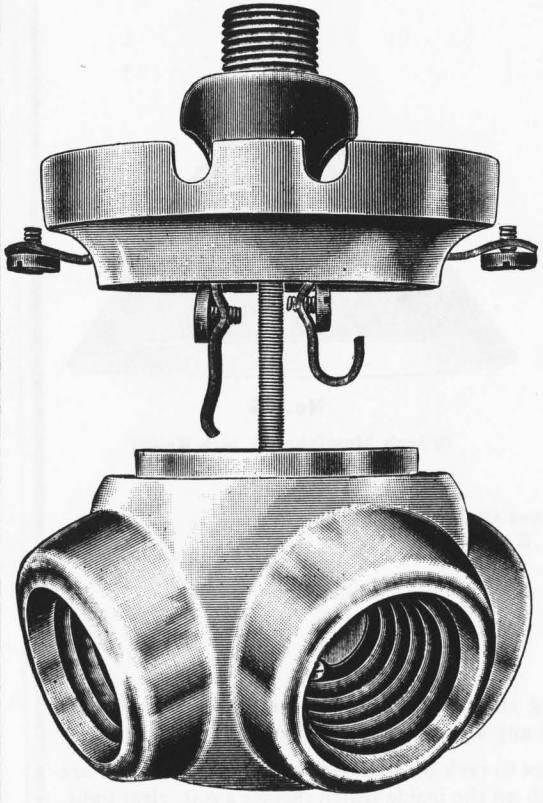
Patent Porcelain Clusters



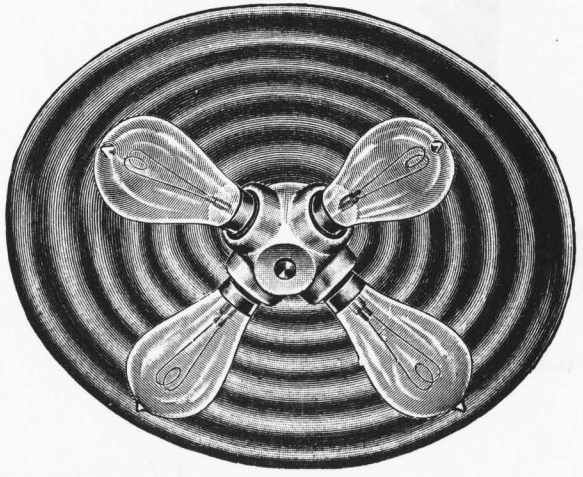
No. 90

No 90 represents a porcelain cluster that requires no wiring and no sockets. Lamps screw into receptacles concealed in cluster body.

It fastens to ceiling like a receptacle or rosette, or it can be extended from the ceiling in the ordinary way. Cut shows bridge attached.

Connects either cleat, moulding or concealed fashion.

Made only for four or five Edison or T. H. lamps.



No. 90

Cluster only, for fastening direct to ceiling, 4 light	$1.55
Cluster only, for fastening direct to ceiling, 5 light	1.65

10 inch Aluminum 3¼ inch Holder

		Steel	Frosted Aluminum	Polished Aluminum
No. 26	7 inch	$ .35	$ .45	$ .60
	8 inch		.65	.80
	10 inch		.80	1.00
No. 28		.35	.45	.60
No. 29			.75	.95

The holders shown on shades on this and succeeding pages reach well over the shank of the lamp leaving the shade to begin at the top of filament, thus enabling a smaller shade of same angle to cover the lamp as well as a large one with old style holders. They fit any socket and are easily attached or detached.

The shades are seamless and are made of either steel or aluminum. They are very light and are not so apt to rack or pull the socket to pieces as are heavier shades. They are enameled green outside and the steel ones finished with an aluminum bronze finish on the inside which throws a soft, clear light, and is a good reflector. The aluminum shades are finished either frosted or polished on the inside. Heat does not affect these finishes.

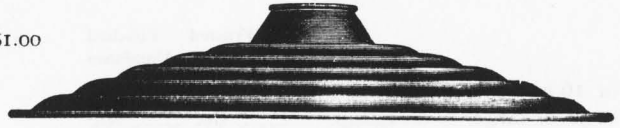
or Outdoor Use. Being Aluminum, it is indestructible by weather.

Price, with Pipe Connection—Frosted.....90c



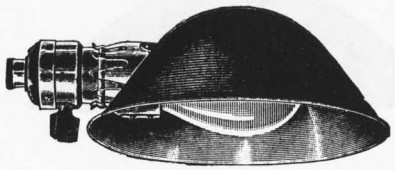
No. 60

Aluminum

Made for 2¼ or 3¼ inch holder

	Frosted Aluminum	Polished Aluminum
10 inch	$ .65	$ .85
12 inch	.80	1.00
14 inch	1.00	1.20
16 inch	1.20	1.45
17 inch	1.40	1.70

Parabolic Shades, Reflectors and Patent Holders Combined

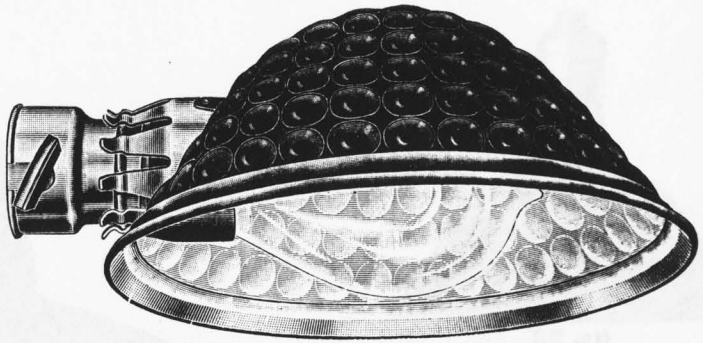


No. 27. PARABOLA

7 inch Aluminum or Steel

	Frosted Steel	Polished Aluminum	Polished Aluminum
7 inch—For 16 and 32 C. P. Lamp	35c	45c	60c
8 inch—For 32 or larger C. P. Lamp		65c	80c

Our No. 27 Parabolic Shade covers the lamp completely, so that it is really a shade as well as a reflector. It is scientifically constructed, getting all the light possible from the lamp and throwing it right where the user wants it. The holder turns on the socket so that the light may be thrown to any angle.



No. 94. DIMPLED PARABOLA

7 inch Aluminum

7 inch—Polished	60c
8 inch—Polished	80c

The Latest and Best Thing in Reflector Shades

No. 94 is a No. 27 Polished Aluminum Reflector Shade improved by dimpling. This dimpling breaks up the reflections and gives an even light, free from streaks. It also makes the shade much stiffer and stronger.

We also have No. 26 Cone Shade, either 7 or 8 inch, page 66, of this style. In ordering specify "No. 26, Dimpled," giving size.
